

MAC TRAILER

**Aftermarket Parts, Inc.**

**MAC Spring-Ride Suspensions**

Single Leaf | 3 Leaf | 9 Leaf | 10 Leaf

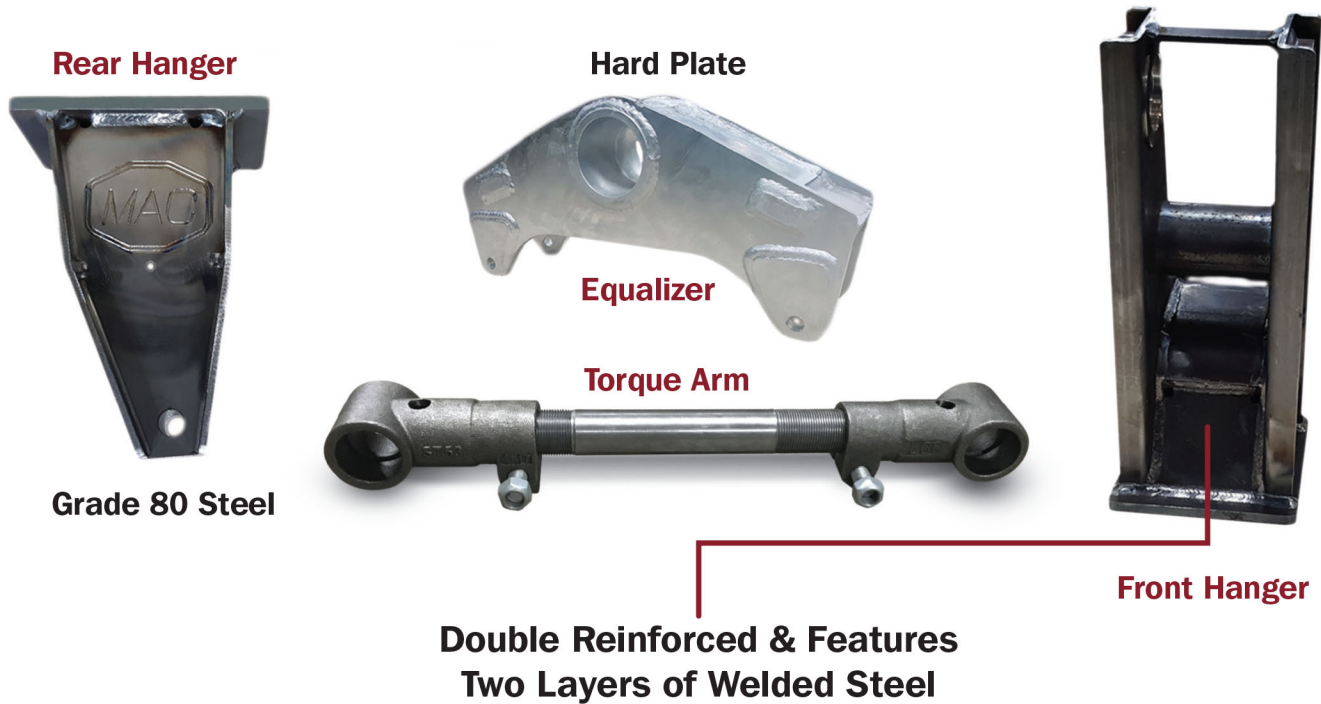

**MADE  
IN THE USA**

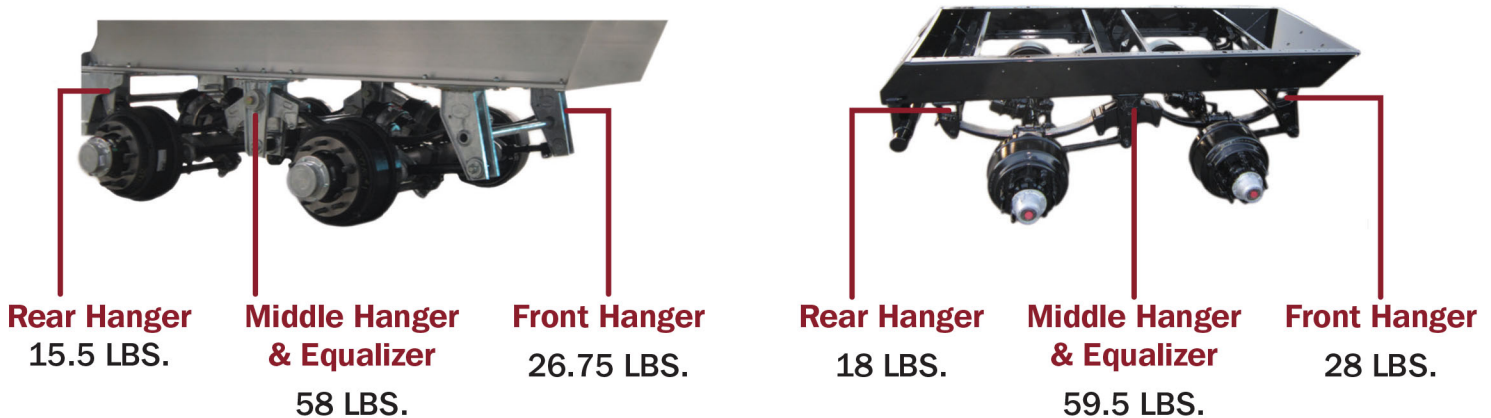

# Why Choose the MAC Spring-Ride...

Equalizers & Hangers are **Reinforced** to Improve Wear Availability.

## Fabbed vs. Cast

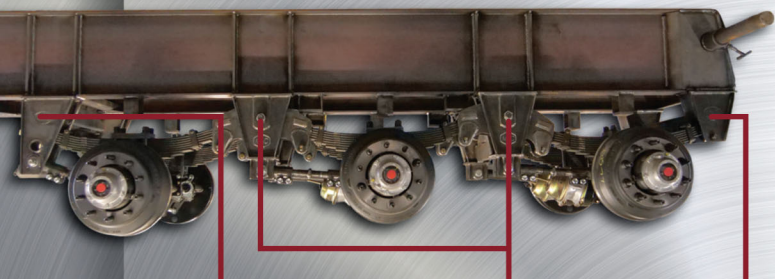

MAC fabricated suspension hangers **weigh less** than traditional cast hangers. This weight difference helps improve fuel economy, payloads & profits.

# MAC Fabbbed Spring-Ride Suspensions

– Direct replacement for other suspensions –

**Front Hanger**  
26.75 LBS.

**Middle Hanger  
& Equalizer**  
58 LBS.

**Rear Hanger**  
15.5 LBS.

- Available In Single, Three, Nine and Ten Leaf Springs.
- Single Leaf is rated at 23,000 pounds.
- Three Leaf is rated at 24,000 pounds.
- Nine Leaf is rated at 26,000 pounds.
- Ten Leaf is rated at 30,000 pounds.
- Offered for Aluminum Square Dump, Waste & Steel Body Trailers.

- Tri-axles are available with the center lift option and are commonly used with Coal Bucket Trailers.
- The Lift Axle can be controlled by a ball valve, electrically, or air from the cab. When air is applied to the bags, the center axle pushes down, ultimately lifting the front and rear axles up.

Weight Rating  
Depend on Brakes  
and Tires.

*Experience the Excellence of the*  
**MAC Spring-Ride**

# Benefits of Choosing the MAC Spring-Ride...

MAC fabbed suspension components are designed to **“Direct Replace”** the parts from other well known suspension systems; ***quality, technology & durability separates ours from the rest.***

## **Powder Coated**

Ridged & Adjustable Torque Arms

## **Galvanized**

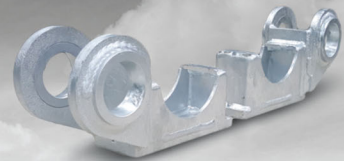

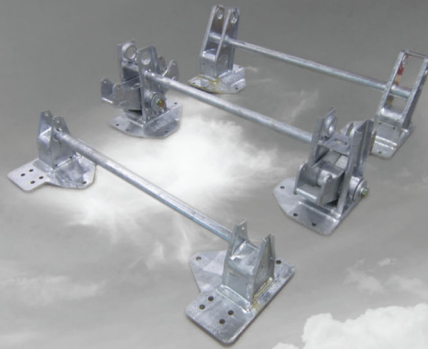

Front, Middle, Rear Hangers & Equalizers for an Aluminum Frame

MAC fabbed Spring-Ride suspensions are offered in **Powder Coated** or **Galvanized Finishes**; Either finish helps to protect your investment from the elements.

# A sample from our collection of “direct fit” spring-ride components

\*Interchangeable with 21B or 74B
