

MAC Trailer Aftermarket Parts Inc. and Industrial Chem Solutions

Have teamed together to create a nationwide inventory of **Popcorn Buster All Seasons Release Agent** to make it convenient for dump truck drivers to use as an alternative to Diesel Fuel in their truck beds.

APPLICATION: PopcornBuster® can be used on truck beds, chip and seal equipment, rollers, pavers, shovels, rakes, brushes, trowels, lutes and mauls.

PopcornBuster® can be used straight out of the container and is most effective when used undiluted.

Spray hauling containment surfaces before each load. Make sure to spray the entire truck bed with an even coat for best results.

STORAGE: Store and use away from oxidizing agents. Never cut, drill, weld or grind on this container, whether empty or full. Always replace drum, pail or IBC cap prior to moving the container.
