

Introducing the new
MAC STEEL
High Cube steel dump trailer

High Lift Gate

- Improved aerodynamics with our new radius style bulkhead = Increased fuel savings. Now standard on all MAC steel dumps.
- Also offering a 102' wide option for a 100 cubic yard maximum capacity.
- Available in the MAC Steel Lite package with the following aluminum options: sub-frame, frame, draft arms, tailgate, dollies, fenders, and wheels = Over 1,000 lbs in weight savings.
- All MAC steel dump trailers are built with 3/16" or 1/4" AR450 material.
- Body styles – the half round design for the greatest impact resistance and the 14' - 22" radius body with a flat floor to maximize cubic yardage capacity.
- Available in frame type or frameless.
- The air assist high lift gate option is also available. The cylinders and lift assembly are enclosed in the rear pockets for protection against loading and external exposure.
